DETAILED ACTION

The submission of after final amendment filed on 02/02/04 is acknowledged. At this point claim 6 has been amended, claims 1-5, 7, 10, 11, 13-17 have been canceled and the remaining claims left unchanged. Thus, claims 6, 8, 9, 12, 18-20 are at issue in the instant application.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To insure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization of this examiner's amendment was given in a telephone interview with Mr. Eric Bram, Reg. No. 37,285 on 03/04/2004.

The following changes to the claim 6 have been approved by applicant:

Claim 6, line 9: "*connected to and extended from the lower side of the optical waveguide plate opposite to the light emission surface*".

Amendment above to Claim 6 is provided for the following reason: previously presented claim 6 disclosed limitation which did not correspond to the drawings and specification, and could be interpreted as a device disclosed by reference US 6,561,663. As now amended, claim 6 claims that the plurality of optical waveguide elements are extended from the lower side of the waveguide plate which is found to be patentably distinct from a prior art.

Authorization for this examiner's amendment was given in a telephone interview with
Mr. Eric Bram, Reg. No. 37,285 on 9/17/2004.

The following changes to the claim 6 and specification have been approved by applicant:

Claim 6, line 7, change to "wherein the optical waveguide plate **includes** a plurality of optical..."

Specification, page 2, line 34, delete "in the embodiments as claimed in claims 2 and 10 to 12" and insert "in the some embodiments".

Specification, page 3, lines 3 and 4: delete "with the embodiments as claimed in claims 3, 8 and 9, while the embodiments as claimed in claims 4 to 6" and insert "with some embodiments while other embodiments".

Allowable Subject Matter

Claims 6, 8, 9, 12, 18-20 are allowed.

The following is an examiner's statement of reasons for allowance:

Referring to Claim 6 the prior art of record fails to show a guide plate having a plurality of optical elements in which the channels are provided and which are optically fixedly connected to and extended from the lower side of the optical waveguide plate opposite to the light emission surface.

Referring to Claims 8, 18 the prior art of record fails to show the second reflecting layer extends over the lateral surfaces and the lower side of the optical waveguide plate.

Claim 9 is allowed as claim depended on claim 8.

Claim 19 is allowed as claim depended on claim 9.

Referring to Claim 12 the prior art of record fails to show that the edges of the channels situated opposite the upper side are surrounded by a third reflecting layer.

Claim 20 is allowed as claim depended on claim 12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
